1 Introduction

Diverse Academies is committed to the protection of all personal data and special category personal data for which we are the data controller.

The law imposes significant fines for failing to lawfully process and safeguard personal data and failure to comply with this procedure may result in those fines being applied.

All members of our workforce must comply with this procedure when processing personal data on our behalf. Any breach of this procedure may result in disciplinary or other action.

2 About this procedure

This procedure informs all our workforce on dealing with a suspected or identified data security breach.

In the event of a suspected or identified breach, the Trust must take steps to minimise the impact of the breach and prevent the breach from continuing or reoccurring.

Efficient internal management of any breach is required, to ensure swift and appropriate action is taken and confidentiality is maintained as far as possible.

The Trust must also comply with its legal and contractual requirements to notify other organisations including the Information Commissioners Office (“the ICO”) and where appropriate data subjects whose personal data has been affected by the breach. This includes any communications with the press.

Failing to appropriately deal with and report data breaches can have serious consequences for the Trust and for data subjects including:

- identity fraud, financial loss, distress or physical harm;
- reputational damage to the Trust; and
- fines imposed by the ICO.

3 Identifying a Data Breach

A data breach is a breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to, personal data.

This could be the result of a breach of cyber security, such as a hack or virus, or it could be the result of a breach of physical security such as loss or theft of a mobile device or paper records. A data breach includes loss of data and so does not have to be the result of a conscious effort of a third party to access the data. Some examples of potential data breaches are listed below:

- Leaving a mobile device on a train;
- Theft of a bag containing paper documents;
- Destruction of the only copy of a document;
- Sending an email or attachment to the wrong recipient;
- Using an unauthorised email address to access personal data;
- Leaving paper documents containing personal data in a place accessible to other people.

4 Internal Communication

Reporting a data breach upon discovery

If any member of our workforce suspects, or becomes aware, that a data breach may have occurred (either by them, another member of our workforce, a data processor, or any other individual) then they must contact their Academy GDPR Team and the Data Protection Officer (“the DPO”) immediately. The DPO can be contacted at:

- gdpr@dalp.org.uk
- 01777 861402

A data breach report form (Form A) must be completed without delay and passed to the Academy GDPR Team and the DPO.

The data breach may need to be reported to the ICO and notified to data subjects. This will depend on the risk to data subjects. The DPO must always be consulted in making a decision as to whether to report a data breach to the ICO. Initial investigations will inform as to whether the data breach should be reported.

If it is considered to be necessary to report a data breach to the ICO then the Trust must do so within 72 hours of discovery of the breach.

The Trust may also be contractually required to notify other organisations of the breach within a period following discovery.

It is therefore critically important that whenever a member of our workforce suspects that a data breach has occurred, this is reported internally to the DPO immediately.

Members of our workforce who fail to report a breach/suspected data breach could face disciplinary or other action.

Investigating a breach/suspected data breach

In relation to any breach/suspected data breach the following steps must be taken as soon as possible. These do not have to be carried out as individual tasks, and the most appropriate way of dealing with any breach will depend on the nature of the breach and the information available at any time.

Breach minimisation

The first step must always be to identify how the data breach occurred, the extent of the data breach, and how this can be minimised. The focus will be on containing any data breach, and recovering any personal data. Relevant departments must be involved, such as IT, to take technical and practical steps where appropriate to minimise the breach. Appropriate measures may include:

- remote deactivation of mobile devices;
- shutting down IT systems;
- contacting individuals to whom the information has been disclosed and asking them to delete the information; and
- recovering lost data.

Breach investigation

When the Trust has taken appropriate steps to minimise the extent of the data breach it must commence an investigation as soon as possible to understand how and why the data breach occurred. This is critical to ensuring that a similar data breach does not occur again and to enable steps to be taken to prevent this from occurring.

Technical steps are likely to include investigating, using IT forensics where appropriate, to examine processes, networks and systems to discover:

- what data/systems were accessed;
- how the access occurred;
- how to fix vulnerabilities in the compromised processes or systems;
- how to address failings in controls or processes.

Other steps are likely to include discussing the matter with individuals involved to appreciate exactly what occurred and why and reviewing policies and procedures.

Breach analysis

In order to determine the seriousness of a data breach and its potential impact on data subjects, and so as to inform the Trust as to whether the data breach should be reported to the ICO and notified to data subjects, it is necessary to analyse the nature of the data breach.

Such an analysis must include:

- the type and volume of personal data which was involved in the data breach;
- whether any special category personal data was involved;
- the likelihood of the personal data being accessed by unauthorised third parties;
- the security in place in relation to the personal data, including whether it was encrypted;
- the risks of damage or distress to the data subject.

The breach notification form (Form A) must be completed in every case of a suspected breach, and retained securely, whether or not a decision is ultimately made to report the data breach. This will act as evidence as to the considerations of the Trust in deciding whether or not to report the breach.

5 External communication

All external communication is to be managed and overseen by the Academy GDPR Team and the DPO in conjunction with relevant senior leaders e.g. Senior Principal/Principal, Head of IT, Head of Marketing and Communications.

Law Enforcement

The Academy GDPR Team and the DPO will assess whether the data breach incident requires reporting to any law enforcement agency, including the police. This will be informed by the investigation and analysis of the data breach, as set out above.

The Academy GDPR Team and the DPO shall coordinate communications with any law enforcement agency.

Other organisations

If the data breach involves personal data which we process on behalf of other organisations then we may be contractually required to notify them of the data breach.

The Trust will identify as part of its investigation of the data breach whether or not this is the case and any steps that must be taken as a result.

Information Commissioner's Office

If the Trust is the data controller in relation to the personal data involved in the data breach, which will be the position in most cases, then the Trust has 72 hours to notify the ICO if the data breach is determined to be notifiable.

A data breach is notifiable unless it is unlikely to result in a risk to the rights and freedoms of any individual. The DPO will make an assessment of the data breach against the following criteria taking into account the facts and circumstances in each instance:

- the type and volume of personal data which was involved in the data breach;
- whether any special category personal data was involved;
- the likelihood of the personal data being accessed by unauthorised third parties;
- the security in place in relation to the personal data, including whether it was encrypted;
- the risks of damage or distress to the data subject.

If a notification to the ICO is required, the Breach Notification Report Form will be critical for them to understand what has happened and the events taken to mitigate the risks

Other supervisory authorities

If the data breach occurred in another country or involves data relating to data subjects from different countries, then the DPO will assess whether notification is required to be made to supervisory authorities in those countries.

Data subjects

When the data breach is likely to result in a high risk to the rights and freedoms of the data subjects then the data subject must be notified without undue delay. This will be informed by the investigation of the breach by the Trust.

The communication will be coordinated by the DPO in consultation with colleagues and will include at least the following information:

- a description in clear and plain language of the nature of the data breach;
- the name and contact details of the DPO;
- the likely consequences of the data breach;
- the measures taken or proposed to be taken by the Trust to address the data breach including, where appropriate, measures to mitigate its possible adverse effects.

There is no legal requirement to notify any individual if any of the following conditions are met:

- appropriate technical and organisational protection measures had been implemented and were applied to the data affected by the data breach, in particular, measures which render the data unintelligible to unauthorised persons (e.g. encryption);
- measures have been taken following the breach which ensure that the high risk to the rights and freedoms of the data subject is no longer likely to materialise;
- it would involve disproportionate effort to contact individuals. In which case a public communication or similar equally effective measure of communication to the data subjects shall be issued.

For any data breach, the ICO may mandate that communication is issued to data subjects, in which case such communication must be issued.

Press

Staff shall not communicate directly with the press and shall treat all potential data breaches as confidential unless otherwise instructed in writing by the DPO.

All press enquiries shall be directed to the Head of Marketing and Communications.

6 Producing an ICO Breach Notification Report

All members of our workforce are responsible for sharing all information relating to a data breach with the DPO, which will enable the Breach Notification Report Form (Form A) to be completed.

When completing the Breach Notification Report Form all mandatory (*) fields must be completed, and as much detail as possible should be provided.

The DPO may require individuals involved in relation to a data breach to each complete relevant parts of the Breach Notification Form as part of the investigation into the data breach.

If any member of our workforce is unable to provide information when requested by the DPO then this should be clearly reflected in the Breach Notification Form together with an indication as to if and when such information may be available.

In the wake of a data protection breach, swift containment and recovery of the situation is vital. Every effort should be taken to minimise the potential impact on affected individuals, and details of the steps taken to achieve this should be included in this form.

The ICO requires that the Trust send the completed Breach Notification Form to casework@ico.org.uk, with 'DPA breach notification form' in the subject field, or by post to: The Information Commissioner's Office, Wycliffe House, Water Lane, Wilmslow, Cheshire SK9 5AF. The DPO will coordinate this process from the Trust rather than from an individual person/academy.

7 Evaluation and response

Reporting is not the final step in relation to a data breach. The Trust will seek to learn from any data breach.

Therefore, following any breach an analysis will be conducted as to any steps that are required to prevent a breach occurring again. This might involve a step as simple as emailing all relevant members of our workforce to reinforce good practice, or providing additional training, or may in more serious cases require new technical systems and processes and procedures to be put in place.

8 BREACH NOTIFICATION REPORT FORM to be completed by staff reporting a breach

Please provide as much information as possible and as quickly as possible as any breaches that need reporting to the Information Commissioners Office (ICO) MUST be reported within 72 hours. The completion of this form will enable a decision to be made as to whether the incident needs reporting. Please forward this form and any supporting information to gdpr@dalp.org.uk

Name of Academy	
Name of person reporting incident	
Describe the incident in as much detail as possible	
When did the incident happen	
How did the incident happen	
What measures did you have in place to prevent an incident of this nature occurring	
Provide any policies, procedures, information considered relevant to the incident and explain if these were in existence at the time of the incident. Provide dates of when the above were implemented	
What personal data has been put at risk? Please specify if any financial or sensitive personal data has been affected and provide details of the extent.	
How many individuals have been affected	
Are the affected individuals aware that the incident has occurred?	
What are the potential consequences and adverse effects on those individuals?	
Have any affected individuals complained to the academy about the incident?	
Have you taken any action to minimise/mitigate the effect on the affected individuals? If so, please provide details	

Has the data placed at risk now been recovered? If so, please provide details of how and when this occurred	
What steps have you taken to prevent a recurrence of this incident?	
What training has previously been given to staff around GDPR and protecting personal data?	
Please confirm if mandatory training has been given to all staff.	
Had the staff members involved in this incident received training and if so when?	
What guidance have you given to staff on the handling of personal data in relation to the incident you are reporting? Please provide any extracts relevant to this incident here.	
Have you informed any other regulatory bodies about this incident? If so, please provide details.	
Have you informed the Police about this incident? If so, please provide further details and specify the Force concerned.	
Has there been any media coverage of the incident? If so, please provide details of this.	

9 ICO BREACH NOTIFICATION REPORT to be completed by the DPO prior to reporting to the ICO

1 Organisation Details

Name of Organisation	
Data controller's registration number (if applicable).	
DPO	
Contact Details	

2 Details of the data protection breach

(a) Set out the details of the breach and ensure that all mandatory (*) fields are completed. * Please describe the incident in as much detail as possible.

(b) * When did the incident happen?

(c) * How did the incident happen?

(d) If there has been a delay in reporting the incident to the ICO please explain your reasons for this.

(e) What measures did the organisation have in place to prevent an incident of this nature occurring?

(f) Please provide extracts of any policies and procedures considered relevant to this incident and explain which of these were in existence at the time this incident occurred. Please provide the dates on which they were implemented.

3 Details of the Personal Data placed at risk

Set out the details of the personal data placed at risk as a result of the breach and ensure that all mandatory (*) fields are completed.

(a) * What personal data has been placed at risk? Please specify if any financial or special category (sensitive) personal data has been affected and provide details of the extent.

(b) * How many individuals have been affected?

(c) * Are the affected individuals aware that the incident has occurred?

(d) * What are the potential consequences and adverse effects on those individuals?

(e) Have any affected individuals complained to the School / Trust about the incident?

4 Containment and recovery

Set out the details of any steps the Trust has taken to contain the breach and/or to recover the personal data and ensure that all mandatory (*) fields are completed.

(a) * Has the Trust taken any action to minimise/mitigate the effect on the affected individuals? If so, please provide details.

(b) * Has the data placed at risk now been recovered? If so, please provide details of how and when this occurred.

(c) What steps has the Trust taken to prevent a recurrence of this incident?

5 Training and guidance

Set out the details of any steps the Trust has taken to contain the breach and/or to recover the personal data and ensure that all mandatory (*) fields are completed.

(a) As the data controller, does the Trust provide its staff with training on the requirements of Data Protection Legislation? If so, please provide any extracts relevant to this incident here.

(b) Please confirm if training is mandatory for all staff. Had the staff members involved in this incident received training and if so when?

(c) As the data controller, does the Trust provide any detailed guidance to staff on the handling of personal data in relation to the incident you are reporting? If so, please provide any extracts relevant to this incident here.

6 Previous contact with the ICO

(a) * Have you reported any previous incidents to the ICO in the last two years?

YES / NO

(b) If the answer to the above question is yes, please provide: brief details, the date on which the matter was reported and, where known, the ICO reference number.
